DEAR MADAM:—The reputation of the Medical Discovery, in curing all kinds of humors, is so well established by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful Druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative power, in relieving all, and curing most of those diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother,

Bridget.—Missus wants pout to tend her a box of Caphalic Gine; no, a bottle of Prepared Pills—but I'an thinking that's not just it naither; but perhaps we'll be afther knowing what it is. Ye see fire's night dead and gone with the size Headache, and wants some mure of that same as relaived her before.

Your stomach is No one of the "many ills that Besh is hair to" is so prevalent, so little understood, and so much neglected as Costiveness, often originating in carelessness, or edentary habits. It is regarded as a slight disorder, of to little consequence to excite anxiety, while in reality it is the precursor sed companion of many of the most fatal and dangerous diseases, and unless carly cradicated, it will bring the sufferer to an untimely grave. Among the lighter evils of which Confiveness is the usual attendant are Headache, Colic, Rheussatism, Foul Breath, Piles, and others of Rie nature, while a long train of frightful diseases, such as Malignant Pevers, Abccases, Dysentery, Diarrhoes, Dyseysia, Apoplexy, Epilepsy, Paralysis, Hysteria, Hypochondrism, Melancholy, and Insanity, first indicate their presence in the system by this lairning symptom. Not unfrequently the diseases named originate in Constipation, but take on an independent existence unless the cause is cradicated in an early stage. From all these considerations, it follows that the disorder should receive immediate attention whenever if occurs, and so person should neglect to get a box of Osphalie Pilis on the first sppcarance of the couplaint, as their timely use will expel the insidious approaches of disease, and destroy this dangerous for the human life. No one of the "many ills that flesh is hair to" is s your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonous field of the canker cats it up; then your complexion loses its bloom and becomes sallow and greenish, and your best day is gone. For want of neurishment your system be-comes loose and flabby, and the fibres of your body be-come relaxed Then follow a train of diseases which the Medical Discovery is peculiarly adapted to Palpitation of the heart, pain in the side, weakness of the spine and amali of the back, pain of the hip joint when you retire, irregularity of the bowels, and also, that most exeruciating of diseases, the How many thousand of poor women are suffering from this disease and pluning away a miserable life, and their next door neighbor does not know the cause.
